

CUBANS BECOME EXCITED

Indignant Over the Killing of a Detected Thief.

AN INVESTIGATION ORDERED

Sentinel Barrios, Who Fired the Fatal Shot, Recaptured After Once Having Been Released From Custody, and Will Be Confined Pending Further Inquiry.

Santiago de Cuba, Aug. 16.—The killing of the Cuban who was shot early yesterday morning by a sentinel who detected him in the act of stealing commissary supplies, has created a furore among the Cuban inhabitants of Santiago, who denounce the act as a coldblooded and wholly unnecessary murder. As stated in yesterday's dispatches, the sentinel, whose name is Barrios, was placed under arrest, but was almost immediately thereafter liberated and returned to his post by order of Col. Hood, who is in charge of the supplies.

In consequence of the clamor raised by the Cubans, however, Gen. Wood, military governor of Santiago, had a consultation with Col. Hood, as the result of which Barrios was re-arrested, and Col. Hood ordered that he be confined pending an investigation.

Military men unhesitatingly endorse the action of the sentinel and express opinion that the example made of the Cuban will be a good one to the marauding Cubans and to tend to check if not put a stop altogether to the stealing of commissary supplies.

The transport steamer Clinto and Mohawk arrived here this morning from Porto Rico with army stevedores and laborers on board.

The transport City of Macon sailed this morning for Montauk Point with parts of the Seventeenth and Twelfth Infantry on board.

DEWEY FIRST AND LAST.

He Opened the War With Spain and Ended It.

The name of Dewey is again on the lips of the people by reason of the capture of Manila, and admirers of the great naval hero are elated over the showing which has been made by the gallant admiral.

It seems remarkable that Admiral Dewey should have had the rare privilege of training upon the sea, and upon the enemy in the May-day battle of Manila, and also of culminating the war by the capture of the disputed town of Manila.

Now that he has taken the city there can be no argument against the possession of the place by the Americans and in determining upon the final terms of peace it is very probable that it is the last act of Dewey in capturing the place, before he was aware of the cessation of hostilities, the American people may be saved many hours of worry.

Naval officers here are today naturally delighted over the fact that the navy opened the war with one of the most remarkable battles in modern times and that it also closes it by accomplishing what the American people have been anxiously awaiting ever since the war began.

DESERTING CAMP ALGER.

Second Army Corps Headquarters Transferred to Middletown, Pa.

Each day a detachment of troops and baggage will leave camp in the morning and will supply a fatigue squad to clear off the old quarters and to act as rear guard.

The investigation into the row in the Third Virginia still continues and may last several days longer. No evidence of any importance has developed within the past few days.

A court of inquiry has been appointed to inquire into the case of Private Ely, of Company C, Eighth Pennsylvania. Ely has a badly crushed finger, which is now in a serious condition because of neglect. He claims that the First Division hospital refused to dress the wound, although he applied several times. The court will be composed of Major Devine, Major T. S. Rockwell, Capt. W. E. Anderson and Lieut. G. W. Ripley.

THE CASE OF MOY GEE YU.

Hearings of Landlady's Trouble Postponed Until Thursday.

The case of Moy Gee Yu, who was arrested yesterday for the killing of a Cuban, was postponed until Thursday.

The affidavits of the plaintiffs allege that all the parties named were co-partners in the laundry business in this city, and had entered into an agreement to keep the profits of the laundry work.

The defendant, Moy Gee Yu, broke the contract and set up "cut-rate, cheap laundry" establishments to the detriment of the business of the others. It is also claimed that the defendant received certain sums of money from the plaintiffs under contract to discontinue his cheap laundry business, but did not live up to the terms of the agreement.

The case of Moy Gee Yu, who was arrested yesterday for the killing of a Cuban, was postponed until Thursday.

The affidavit of Cora M. Erickson also filed with the petition, she stated that she was taken by the agent of the Board of Guardians to Virginia, under pretense that she was to be sent to school. She was, however, only allowed to attend school for one week, and in October, 1892, returned to this city.

She was again taken into custody by the Board of Guardians and put to work at the Newcomb Hotel, in this city, where she was compelled to do very onerous and disagreeable work.

FOUR MONTHS FOR VAGRANCY.

A Recently Released Pickpocket Again in Detention.

William Campbell, a young colored youth, was sent to the workhouse today by Judge Taylor for four months on a charge of vagrancy.

Campbell was arrested yesterday in the Capitol grounds after being pursued for several squares by Detective Hume. He was a passenger aboard a car of the Capital Railway Company on the date mentioned and through the negligence and carelessness of the company he was violently precipitated from the car causing his right and left legs to be broken and his shoulders and arms to be bruised.

Two thousand or more colored people went on an excursion yesterday and several pickpockets worked the crowded depot very successfully. Three colored people complained to Detective Hume, and the latter, after watching Campbell, started after him. He ran and was pursued to the Capital where he was arrested.

HAVE GIVEN UP FAITH CURE.

Leading Members as a Result of the Potter Case.

Greenport, N. Y., Aug. 16.—The faith cure community of One is losing many members as a result of the case of Mrs. Potter's daughter, Faith, who was dying of typhoid fever without the attendance of a physician. Public indignation forced Mrs. Potter to call Dr. Matson to her aid, and now attended the girl for three days, and there is hope that she will recover under his treatment.

Capt. Vail, who is the father of the faith cure believers in the village, visited the local drug store yesterday and purchased medicine for his little granddaughter, Faith.

He was prescribed by Dr. Matson. As he had always refused to take any medicine when sick or to sanction its use in his family, Capt. Vail's action is regarded as a change in his belief.

Another case of typhoid fever developed yesterday. Antoinette, the three-year-old daughter of Capt. Vail, was taken to the hospital, where she lives opposite the Potter cottage, was stricken, and although her parents have been strong believers in the faith cure, they lost no time in calling in Dr. Matson.

The transport Matanzas has no yellow fever. She brought 327 men of the Fourth and Eighth Artillery. There are seventy sick of malaria and ague.

The first death here among the Rough Riders occurred in the detention hospital today. Private Francis Kennedy, of the 10th Cavalry, died of the bowels after this morning.

There are now 306 sick in all the hospitals, among which are twenty-seven suspicious cases.

BEECH CREEK CLOUDBURST.

Additional Details Place the Dead at Twenty-nine.

Knoxville, Tenn., Aug. 16.—Reports from Beech Creek and additional horrors to the cloudburst in the mountains last Friday night. In addition to the seventeen persons reported drowned, latest reports include the names of John Cook and family, William Tunnell and family, Thomas Eagan and family, and Patience and Yancey Morelock.

It is not known how many persons can be numbered in the fatalities, but a conservative estimate will place the list of additional killed at twelve, making the total dead as estimated, twenty-nine. The latest reports also state that the cloudburst swept down the Green county side of Chimney Top Mountain, at the summit where it fell, and that fifteen persons were reported killed there.

In addition to the drowned, thirteen persons were injured, among them being William Fagon. The injuries of none are fatal.

The damage to property may prove much greater than was at first anticipated. This is due to the fact that the corn crop in the Beech Creek district was much better than for years. The stricken community is a rich, mountainous farm region, and all its agriculture has been washed away by the flood. Beech Creek is twenty-five feet deep and is receding very slowly.

Britannia's Officer Held to Answer Charges of Larceny.

London, Aug. 16.—John W. Jago, the first officer of the steamer Britannia, who was arrested at Queenstown on board the steamer Lucania upon the arrival of that vessel on Friday, was arraigned in the Bow Street police court this afternoon, charged with larceny and embezzlement in America.

It is learned that the smuggling of hares had been carried on for the last five voyages of the Britannia, each voyage averaging at over \$200 profit to the smugglers. Jago was remanded for a week, but being released.

STOCKS IRREGULAR.

New York, Aug. 16.—The advance at the opening of the stock market today extended to 1 per cent. Heavy commission and London buying was responsible for the rise. The Grangers, Denver and Rio Grande, Brooklyn Rapid Transit, Northern Pacific, Union Pacific and Topeka and Santa Fe, and Manhattan continued to be pressed for sale, and a further decline of 1-3 per cent took place.

After the early dealings there was some reading and selling by traders for a reaction, and the market eased off about 1-2 per cent.
